

**Webster Groves Historical Society  
Century Home Application**

For a fee of \$100 the owner will be provided with a finished 12" x 16" metal plaque containing the original date and the name of the original owner and membership in the Webster Groves Historical Society.

In the past, plaques have been available to homeowners who provide a legal description of the property, the earliest deed of trust, plat book, page number, date recorded and name of the original owner. If you have this information, we would like it for the Historical Society's files.

Photographs of the front, rear and side elevations should be included. A narrative describing major improvements is helpful. Photocopies of any historical information, such as wills, old letters, old church directories will help with documenting the home.
